

SnS Volunteer Opportunities

- (1) **Advertising Sales**: To visit local businesses to sell the ads on Channel 2 (and our web site) – which are our ONLY source of income for equipment and expenses.
- (2) **Advertising Production**: Preparing the Power Point ads for the above.
- (3) **Broadcast Production**: Collecting the video program files and scheduling them for broadcast; updating the computer at the Western Broadband “head end” (a building near the RV parking lot) with new ads and the weekly broadcast; keeping an Excel spreadsheet record of what has been broadcast and burning a DVD archival record of each week’s programs (to keep the FCC happy!).
- (4) **Video Production**: Camera operators (with some knowledge of lighting and audio recording) and Interviewers to actually film each video program.
- (5) **Video Editing**: Converting the camera video footage into a finished product. Mostly we use Windows MovieMaker because it is VERY easy to learn and is adequate for most of what we do now.
- (6) **Producers**: This is a catch-all description for “everything else”. Mostly it means anyone with an interest in something (a sport, club, hobby, craft, or whatever) that has the energy to convert that interest into a video – maybe with the help of many of the above. But SOMEBODY needs to get the idea and pull it all together. You have almost a blank check – the possibilities are limited only by what is of interest to SaddleBrooke residents on the one hand and what the FCC will permit on the other!
